## **A630R Liqui Bond**

### ☼ **Solidifies liquid land based spills** ☼

A630R is a non-toxic, non-hazardous, non-corrosive, fire retarded, environmentally friendly, ALL-PURPOSE liquid bonding agent. A630R will bond water, oils, fuels, solvents, or a mixture of the preceding.

A630R is a dry granular material designed to immobilize liquid spills very rapidly, bonding the liquid together for easy removal. Residential, commercial and industrial concerns large and small have a need for a fast-acting bonding agent to reduce damage, downtime, and protect the environment during a spill. A630R has passed the Toxic Characteristics Leachate Procedure (TCLP). A laboratory that is recognized by the Ohio EPA conducted the test.

#### **A630R is ideal for:**

- \* Plumbing Leaks
- \* Equipment Overflows
- \* Water Line Breaks
- \* Service Stations
- \* Laboratory Spills

When most fuels are solidified they will pass TCLP testing and can be landfilled according to EPA guidelines or incinerated (all A600 series products are certified incinerateable).

*COMPLIANCE: Solidified or gelled materials must be disposed of in accordance with federal, state, and local laws and regulations. The user is solely responsible for compliance with disposal of solidified or gelled materials.*

**APPLICATION:** Dry powder material with fire retardancy for use in immobilizing liquids on land, including water, fuels, solvents, paints, etc. A630R is suitable to bond or congeal a spill to slow or stop the spread of the liquid.

**WEIGHT BY VOLUME:** One (1) pound equals 114 cubic inches.

**SPECIFIC GRAVITY:** .91

**PH SPECIFICATIONS:** Neutral (6.5 to 7)

**TOXICITY:** This product is non-toxic, non-hazardous, non-corrosive.

**STORAGE SPECIFICATIONS:** Store in dry area. Keep free of contamination.

**FLASH POINT:** N/A

**VOLATILITY BEFORE USE:** None

**VOLATILITY AFTER USE:** Varies with the flammability of the liquid being bonded.
