PRODUCTS

Now you can communicate your message on a totally unique product. No two sheets are alike. The feel and look is real wood. You can write on, fold it, type on it, copy onto it. Do whatever you would do with a regular paper product.

LENWOOD comes in sheets and envelopes in different woods: Maple, Teak, Walnut, Mahogany, etc. You can match or contrast envelopes and sheets.

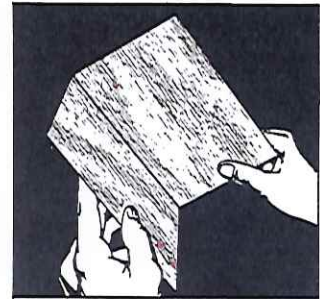

UNLIMITED USES

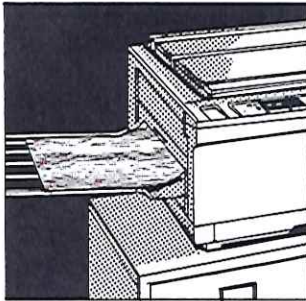

Writing*

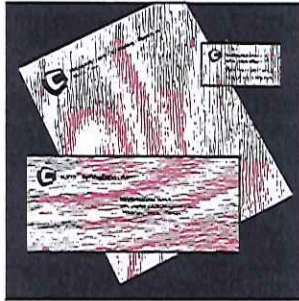

Typing

Folding

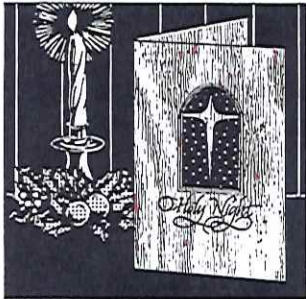

Copying

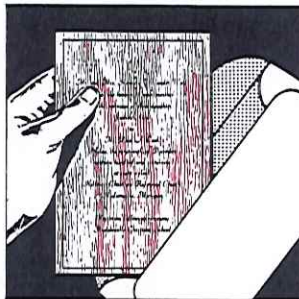

Business Stationery

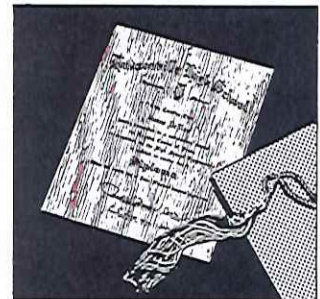

Business Folders

Holiday Cards

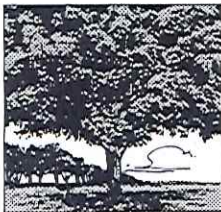

Invitations

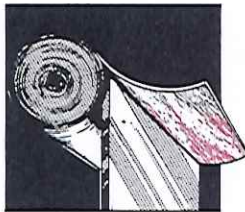

Certificates

*Some pens may write better than others on the different wood species.

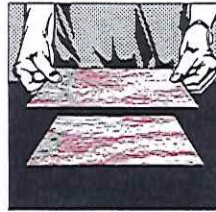

HOW LENWOOD IS MADE

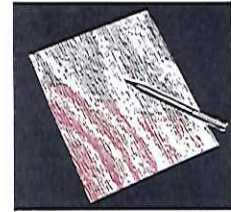

Start with genuine wood

Shave micro-thin veneer

Hand laminate two .004 thick veneers

Final product is as versatile as regular paper
